

## **THE COASTAL HOSPITAL AT HAGEVIK**

*A specialist hospital for planned orthopaedic surgery*

We annually perform

- 1,700 to 1,800 operations on all areas of the musculo-skeletal system
- approx. 11,000 clinical assessments are carried out by specialist doctors
- approx. 14,000 x-ray examinations

We offer patients a comprehensive range of health services from clinical examination to treatment, care, mobilisation and further follow-up.

We are a research and teaching unit under the University of Bergen. The hospital is responsible for the education of doctors, nurses, radiographers, physiotherapists and health care workers.

## Welcome to the Coastal Hospital at Hagevik

On the right-hand side, you can see how to get here. The main entrance is at the side of the hospital that faces the sea. You register your arrival at the reception desk at the patient reception area. You then go to the outpatient clinic's waiting room on the first floor, where you will be called for a doctor's examination and, if applicable, an x-ray examination. The whole assessment process usually takes 30 to 60 minutes.

Further examination and tests may be required before a decision is made regarding the type of treatment you require. Treatment may mean an operation or for example medication/exercise/physiotherapy.

Most of the patients who are to undergo surgery will receive an appointment for a pre-operative assessment one to three weeks before the operation.

You and your regular GP will receive information during the different phases of your treatment. If you have any questions, or would like more information, feel free to call us at tel. (+47) 56 56 58 00.

### By bus ([www.skyss.no](http://www.skyss.no))

**...from Bergen:** Service 600 to Tøsdalsskiftet, service 602/607 to Hagavik

**...from Halhjem:** Service 600 to Tøsdalsskiftet, service 602/607 to Hagavik

*There is a 500-metre walk from the bus stop down to the hospital.*

### By car

**...from Bergen:** Follow the E39 road to Halhjem/Stavanger until you get to the roundabout at the Uno-X service station (approx. 17 km after Nesttun). Take the second exit at the roundabout and follow the road approx. 5.1 km until you see the sign for the hospital.

**...from Halhjem:** Follow the E39 road to Bergen. Take the first exit at the second roundabout after the tunnel (approx. 6 km from Halhjem). Follow the road approx. 5,1 km until you see the sign for the hospital.

**GPS:** 60.179797, 5.394974

### Other means of transport

Contact *Pasientreiser* (the patient travel office) at tel. (+47) 05515.

### **The hospital has**

- around 250 employees, a reception section, a surgical department, an anaesthesia department, a recovery unit, wards, a physiotherapy department, an x-ray department, a laboratory, a kitchen, a laundry, a cleaning department and a supply/procurements and technical department.

### **The hospital treats most musculoskeletal problems apart from acute injuries. The biggest patient groups are**

- hip, knee and shoulder problems that are treated by replacing joints with a prosthetic implant or replacing prosthetic implants.
- back problems, such as prolapses and spinal stenosis, in addition to other back problems that can be treated by implants.
- shoulder, knee, ankle, elbow, hip, foot and hand problems that can either be treated by keyhole surgery or open surgery.

**Newspapers** can be purchased in the patient reception area from 8.00 to 16.00 on weekdays.

**Internet** There is free Wi-Fi in the wards, but the signal is poor at the outpatient's clinic.

**The canteen** is on the ground floor. Open on weekdays from 10.00 to 15.00.

**ATM** There is no ATM at the hospital, but you can pay for goods and the patient charge by card.

**Address** Hagaviksbakken 25, NO-5217 Hagavik

**Telephone** (+47) 56 56 58 00
